PREPARATORY & LIQUID ACCESSORIES

M PREP SPRAY

Preparatory liquid for nail and hand cleaning with a practical nozzle pump. When sprayed on the nails at the beginning of the treatment, it has a dehydrating and degreasing effect. Its degreasing effect also helps the nail form stick to the skin. Spray on nails before nail extensions as a dehydrating, cleansing prep liquid.

50 ml

M PREP

Dehydrator, degreaser liquid for preparing the natural nail plate. Wait for drying before you start working with other materials. (1st step)

10 ml

M PRIMER

For troubled nails (optional). Preparation liquid with acid in it. It helps with the cohesion and dehydrates the nail even in the deeper levels. Make sure that the product isn't contacts the skin. Wait for it to dry before using any other product! (2nd step)

10 ml

ACID FREE PRIMER

It helps to create a strong adhesion. Use it in a thin layer. It makes the surface a bit sticky, so you don't have to wait until it dries. You can use it under any material. If you use also the M Primer, this should be the 3. step.

10 ml

NAIL WIPES

Lint-free, fine woven wipe. It doesn't fluff.

1 box (100pcs)

VISION ACRYLGEL FLUID

This is an additional liquid, recommended for the MarilyNails Acryl-Gel product line. It makes shaping the Vision Acrylgel easier. The fluid is clear and has no smell.

50 ml

BASE GELS & STRENGTHENERS

BASEFLOW

The base layer of GelFlow. It provides durability for nails up to 2-3 weeks. Soak-off. Curing time 2 minutes (UV), 1 minute (LED).

- 4 ml
- 7 ml

ARCHIBASE GEL

Extra strong base gel to make sure the nails won't lift. Use it under the builder gel to achieve the perfect adhesion. Soak-off. Curing time 2-3 minutes (UV), 1 minute (LED).

- 10 ml

BASEFLOW C

With our latest soak-off, transparent base gel, you can not only create a thin base for your set, but also build a **proper C-curve reinforcement and even perform minimal extensions (up to size S)**. Its completely clear color makes it ideal for encapsulating nail art designs as well. It offers strong adhesion and ensures perfect hold for at least 3 weeks. Another key benefit of this product is that it is **free from Di-HEMA and HEMA compounds**, making it a safe choice for clients who have confirmed sensitivity to these ingredients.

- 4 ml
- 7 ml

FIBERFLOW HARDENER CLEAR

Base and builder gel with extra adhesion suitable for both nail enhancements and gel polishes in a pleasant cover shade with extra adhesion. It provides the longest grip ever also for thinner nails thanks to the synthetic **silk fibers** in the material. **Also recommended for C-arc reinforcement.** Soak-off. Curing time: 2 minutes in UV, 1 minute in LED.

- 4 ml
- 7 ml

FIBERFLOW HARDENER COVER

Strengthener and base gel for artificial nails and gel polishes in a pleasant cover shade with extra adhesion. It provides the longest grip ever also for thinner nails thanks to the synthetic **silk fibers** in the material. **Also recommended for C-arc reinforcement.** Soak-off. Curing time 3 minutes (UV), 1,5 minutes (LED).

- 4 ml
- 7 ml

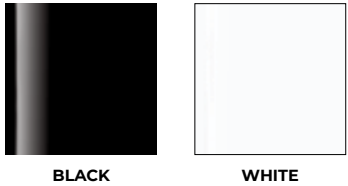

BASEFLOW PLUS

BLACK AND WHITE BASE GELS

The BaseFlow Plus Black and White shades are colored base gels. With their pigmented, black and white shades, they will be absolute favorites of your guests. With this material you can save a lot of time, as you can skip the application of the color layers! **Due to its strong pigmentation use it in 2 layers for C-curve strengthening.** Its texture is a little thicker compared to the clear BaseFlow, but softer compared to the colored Rubber Base. It does not generate heat during the curing time, so you can safely apply it even to your most sensitive guests. It leaves a sticky layer, so the surface is also suitable for the application of decorations. It can also be used for strengthening, it provides perfect adhesion for 2-3 weeks, it can be dissolved. Despite of its pigment saturation, it perfectly cures. Curing time is 3 minutes in UV and 1.5 minutes in LED lamp.

- 7 ml

COLORED BASE GELS

RUBBER BASE

COLORED BASE GEL

A revolutionary new, colored base gel that can be applied directly to prepared nails and can also be used for C-curve technique. It is not a gel polish color, but it can be used on its own for coloring. In this case, apply in 2 thin layers! Its outstanding flexibility has the characteristics of rubber. It is easy to spread and it has a strong adhesion. The material does not flow into the nailfolds and holds the desired curve well. Its surface is easily smoothed out even with a little help, and it perfectly fills the unevenness of the surface. It really speeds up the work because you can skip the application of the gel polish color. Its surface cures slightly sticky, we recommend the TopFlow Free product line as a top. It is more resistant to mechanical effects as it adapts well to the movements of the natural nail. Durable, yet extremely comfortable to wear. Curing time is 3 minutes in UV and 1.5 minutes in LED.

ARCHITECH – CLEARGEL

PROFESSIONAL TRANSPARENT BUILDER GEL SCENTED

Medium dense, water-clear builder gel, for salon work. Easy to handle, excellent bending, yellowing-free material with a pleasant citrus scent. Due to its massive consistency, it does not flow into the nailfolds during the work. The consistency of the material allows to make longer and extreme shaped nails.

Curing time 3 minutes (UV), 1-1,5 minutes (LED).

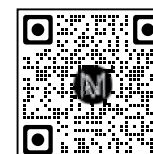

Bending time 20-25 sec (UV), 10-12 sec (LED).

ZEROFILE – CLEARGEL

EASY TO SPREAD TRANSPARENT BUILDER GEL

A builder gel for quick nail extension and filling with superstrong but flexible and easy to file properties. It is also a perfect choice for zero-file techniques thanks to its easy spreading texture. It will be a favorite of your clients due to its low heat generation, as there is no burning sensation. For the ideal adhesion, use a base gel under the material.

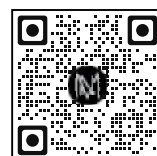

Curing time 2-3 minutes (UV), 1-1,5 minutes (LED).

Bending time 20-25 sec (UV), 8-12 sec (LED).

ELASTO – CLEARGEL

SOFTER TRANSPARENT BUILDER GEL

SCENTED

For those who like softer materials, ideal for refilling. A clear builder gel with a slight bluish transparency. It is also ideal for decorations because of its texture. It smells a slight citrus scent during the work and it is more intense when filing.

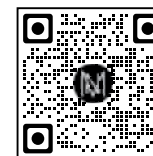

Curing time 3 minutes (UV), 1-1,5 minutes (LED).

Bending time 20-25 sec (UV), 10-12 sec (LED).

BUILDERGELS

PINK AND COVER BUILDER GELS

The nail set was made with **ZeroFile - FairyRose**, **Galaxy Fairy Dust** rhinestones and **TopFlow Free**. By Sára Haraszti.

ZEROFILE - FAIRY ROSE

SOFT PINK, SHIMMERING, FLEXIBLE BUILDER GEL

Fairy Rose is the newest member of the ZeroFile builder gel family. Its radiant pink tone is blended with a delicate shimmer, creating a magical look on every nail—a truly fairytale-inspired shade.

This is MarilynNails' very first glitter builder gel, and it's also free from Di-HEMA and HEMA.

Super strong yet flexible and easy to file, this builder gel is ideal for quick building and refills. Thanks to its self-leveling texture, it's also a perfect choice for file-free techniques.

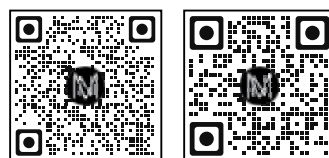

Clients will love it for its low heat generation, as it doesn't cause a burning sensation during curing.

For optimal adhesion, apply a base gel underneath.

Curing time: 2–3 minutes in UV, 1 minute in LED.

MOUSSE - COVERGEL

AND COVER SHADE

Nail bed extension gel with a special texture and a beautiful natural cover shade. It has a thick but creamy consistency that softens and becomes easy to handle when you spread it with a brush. One of its most important properties is that it does not flow, making it ideal for both building and filling. It generates medium heat, cures hard and remains sufficiently flexible. It is resistant and hard to break. Thanks to its easy to handle texture you can save time with it and it also can be used without filing if applied thinly. When used in a thicker layer, it can be easily shaped, so even two nails can be created with it at the same time, even in the case of short or medium-length nails.

Curing time in UV 2-3 minutes, in LED 1 minute.

BUILDERGELS

NAIL BED EXTENSION GELS

ZEROFILE - COVERGEL

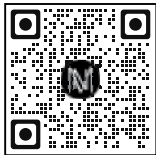

EASY SPREADING, HIGH PIGMENTED COVER BUILDER GEL

One of our most popular cover gels has been renewed. We created a more resistant material that makes your work easier. A super strong and flexible, easy to file builder gel for building and filling. It is an excellent French base, but it can also be used on its own. This CoverPink shade is suitable for all skin types. Due to its high pigmentation, less material is needed. Thanks to its easy-to-spread texture, it is a perfect choice for filing-free technique. For the ideal adhesion, use a base gel under this material!

The curing time is 2-3 minutes in UV, 1-2 minutes in LED lamp. The bending time is 20-25 seconds in UV, 8-10 seconds in LED lamp.

EASYFILL - COVERGEL

SLIGHTLY MORE TRANSLUCENT NAIL BED EXTENSION BUILDER GEL

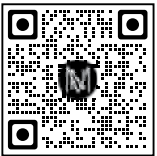

A more translucent, natural nail bed-colored builder gel, ideal for quick and beautiful refills—but also suitable for full building without the need for a clear gel. Its shade is softly pigmented for a subtle, natural look. The texture is softer and easy to work with.

Curing time: 3 minutes in UV, 1.5 minutes in LED.

Bending time: 30–35 seconds in UV, 10–12 seconds in LED.

ARCHITECH - COVERGEL

THICKER NAIL BED EXTENSION BUILDER GEL

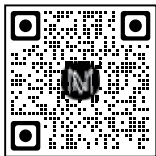

A thicker, natural nail bed-colored builder gel designed for nail bed extensions. It does not run and can replace both Clear Gel and Cover Gel at the same time. Thanks to its ideal density, it remains easy to work with even during hot summer days.

Curing time: 3 minutes in UV, 1.5 minutes in LED.

Bending time: 30–35 seconds in UV, 10–12 seconds in LED.

COVERPINK - COVERGEL

MEDIUM DENSITY NAIL BED EXTENSION GEL

A natural nail bed-colored builder gel with medium density, ideal for seamless nail bed extensions. Its coverage is perfect for achieving a long-lasting, outgrowth-free result: it provides opacity at the smile line while blending smoothly near the cuticle area.

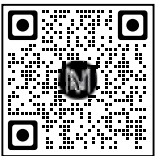

Not recommended for creating an extended nail bed height—please choose one of our other nail bed-colored builder gels for that purpose.

Curing time: 3 minutes in UV, 1.5 minutes in LED.

Bending time: 25–30 seconds in UV, 10–12 seconds in LED.

BUILDERGELS

PINK AND WHITE BUILDER GELS

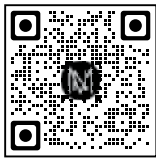

FRENCH - PINKGEL

SLIGHTLY COVERING PINK BUILDER GEL

Medium-dense builder gel for raising the nail bed or even for sculpting the whole nail. If you build the whole nail with this gel, you will get a pleasantly fresh, pink nail. Very strong, fast-curing gel; therefore, it should be used in a thinner layer or precured in the scattered light in front of the lamp to avoid the strong heat generation. Curing time 3 minutes (UV), 1-1.5 minutes (LED). Bending time 25-30 sec (UV), 10-12 sec (LED).

ARCHITECH GEL - SNOWWHITE

BRIGHT WHITE, THICKER BUILDER GEL

An intensely white, thick builder gel recommended for creating the free edge in French-style nails. Its dense texture prevents running and allows for smooth application. In a semi-cured state, it's excellent for bending, making it a great choice even for creating extreme shapes. Curing time: 3 minutes in UV, 1.5 minutes in LED. Bending time: 25-30 seconds in UV, 10-12 seconds in LED.

BABYBOOMER - MILKY ROSE GEL

MILKY PINK BUILDER GEL WITH MEDIUM DENSITY

The perfect milky rose shade for babyboomer nails. Its color is so neutral and well-adapted that it looks stunning on both hands with cool and warm skin tones. Its density is exceptional, it is a medium soft gel. The material cures perfectly even at full height. Its spreadability is ideal, it is also suitable for preparing nails without filing. The curing time is 3 minutes in UV, 1.5 minutes in LED. Bending time in UV is 25-30 seconds, in LED 10-12 seconds. **MN advice:** Use our non-yellowing Babyboomer - Milky White Gel to make the babyboomer transition truly dazzling!

Imagine the first warm rays of spring sunlight embracing nature, as the fresh mint green of **Tropic Like it's Hot (101)** evokes the vibrant green of blooming meadows. In the air, the peachy tones of **Peach Please! (102N)** emerge, as if the sweet scent of spring peach blossoms fills the moment. As summer approaches, the sun shines more intensely, and the warm, sunset-like shade of **Salmon Shore (103N)** already brings to mind the calm of coastal evenings, while the vivid coral pink of **Coral Me Maybe (104N)** carries the energy of summer adventures. The hot, joyful moments are made even more sparkling by **Tiki Barbie (105N)**, with its bold pink reminiscent of the brightness of summer cocktails. Finally, as the sun sets, the mystical purple glow of **Amethyst Island (106)** tints the sky, perfectly capturing the magical moments of spring dreaming and summer freedom.

GELPOLISHES

CAT EYE GALAXY

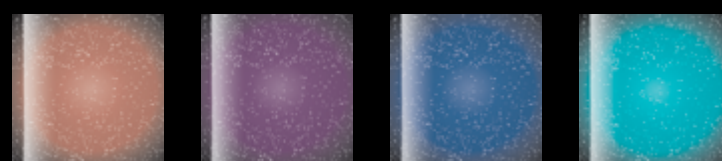

MAGNETIC REFLECTIVE GEL POLISH

An innovative new material that magnetically attracts attention! Each of the 4 galaxy-inspired shades is equipped with reflective (light-reflecting) glitter, creating a breathtaking effect even without the magnet. However, we've added the twist that they are also magnetizable!

Their bold colors, such as gold, purple, turquoise, and pink, are sure to become a huge favorite among your clients. Curing time: 3 minutes in UV, 1-1.5 minutes in LED.

CAT EYE MAGNET – ALL IN ONE

DOUBLE-SIDED MAGNET

An essential accessory for our Cat Eye gel polishes, this design allows you to create various patterns on the nails, such as star shapes or different S-shaped patterns. To achieve the strongest color effect, magnetize all four sides of the nail, while for the dominant reflective effect, we recommend shape magnetization.

*If your Micro Beads spill, you can
easily collect them with this magnet and
return them to their container.*

CAT EYE VELVET

MAGNETIC REFLECTIVE GEL POLISH

Following the success of the Cat Eye Galaxy collection, the Cat Eye Velvet colors are here. Their white magnetic glitter, when magnetized from different angles, creates a truly velvety effect. For shape magnetization, we recommend the All In One Cat Eye magnet. It provides beautiful coverage when layered on its own, but using a colored base (e.g., FiberFlow Hardener Cover) results in an even more uniform look.

GELONE

ONE-STEP GEL POLISH

Highly pigmented, one-step gel polish shades for lovers of vibrant colors. Thanks to its unique formula, there's no need for cleansing, or even a base or top coat. Apply in 1 or 2 thin layers, depending on your desired look! If you still prefer to finish with a top gel, we recommend gently buffing the surface first with a surface refiner to prevent the top gel from slipping. Curing time: 3 minutes in UV, 1-1.5 minutes in LED.

COLOR GELS

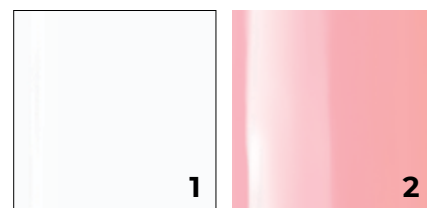

FULLPIGMENT COLORGEL FREE

SUPER PIGMENTED COLOR GEL - NO CLEANSING NEEDED

This ultra-pigmented gel is an essential product for nail art, but it's also perfect for gel painting and full coverage. Use it in 1 or 2 thin layers, depending on the effect you want to achieve.

Its texture is creamy and easy to work with. After curing, it doesn't require wiping – it cures to a glossy finish. Curing time: 3 minutes in UV, 1.5 minutes in LED.

3 ml

Nails made with **FiberFlow Hardener Cover**, **Fullpigment Color Gel Free No. 1**, and **Rainbow Flakes**. Work by Sára Harasztia.

DECORATION GELS

MAXPAINT COLORGEL FREE

CLEANSING - FREE PAINTING GEL FOR SURFACE DECORATIONS

Thicker than FullPigment color gels, this painting gel is available in black and white. It's an essential tool for every nail artist's creativity—so make sure it's in your drawer too! MaxPaint painting gels should be applied in an ultra-thin layer for surface decoration. Ideal for painting flowers, contour lines, and other lively motifs. They cure to a dry finish and do not require cleansing. Curing time: 3 minutes in UV, 1.5 minutes in LED.

3 ml

BLACK

WHITE

The nail was created using **FiberFlow Hardener Cover** as a base, decorated with **MaxPaint ColorGel Free Black** and **White**, and finished with **TopFlow Free** top coat. Work by Sára Harasztia.

For precise application, we recommend using our Mo or Mo Long brush.

FRENCHIE - WHITEGEL

BRILLIANT WHITE, FLEXIBLE FRENCH GEL

A non-yellowing white gel that ensures a crack-free French tip on any base material. It allows for an even more precise and sharper smile line. The texture is soft yet stable, and it won't run. Cures with a sticky layer, so it requires a top coat. Curing time: 2-3 minutes in UV, 1-1.5 minutes in LED. **MN advice:** Due to its high pigmentation, apply in a thin layer!

GALAXY RHINESTONE

JEWEL-EFFECT RHINESTONES

You can never have too much sparkle! These rhinestones come in three sizes. The original trio of classic shades—clear, iridescent, and iridescent pink—has now been joined by two stunning new color-shifting tones: Cauldron (black-blue) and Fairy Dust (pink-blue). With these, you can elevate any nail set! Apply them across the entire nail or scatter them for a twinkling effect—just like stars in the night sky. Each jar contains 100 rhinestones of the same size.

ART FOIL GEL

TRANSFER FOIL GEL

The texture is thick and transparent, ensuring perfect adhesion even on uneven surfaces. Our Transfer Foil Gel allows for precise and quick decorations. The secret lies in its density, which guarantees excellent adhesion and prevents the gel from running on the nail surface. For full coverage, you can evenly apply the foil across the nail, but for abstract decorations or designs, simply apply the gel in 1-2 spots. How to use: With strong pressing movements, press the transfer foil into the surface covered with Art Foil Gel that has been cured for 30 seconds. Curing time may vary depending on the lamp used!

4 ml

You can decorate the entire surface of the nail seamlessly with it!

For easier use, pair it with the sticker picker tweezers!

The nail was created with **ZeroFile - MilkyWhite**, **dried flowers**, and **gold transfer foil**, finished with **TopFlow Free**. Work by Sára Harasztia.
